- Novartis Pharma AG

Peter Johnson, Global
Product Development
Business Continuity
Lead - Roche

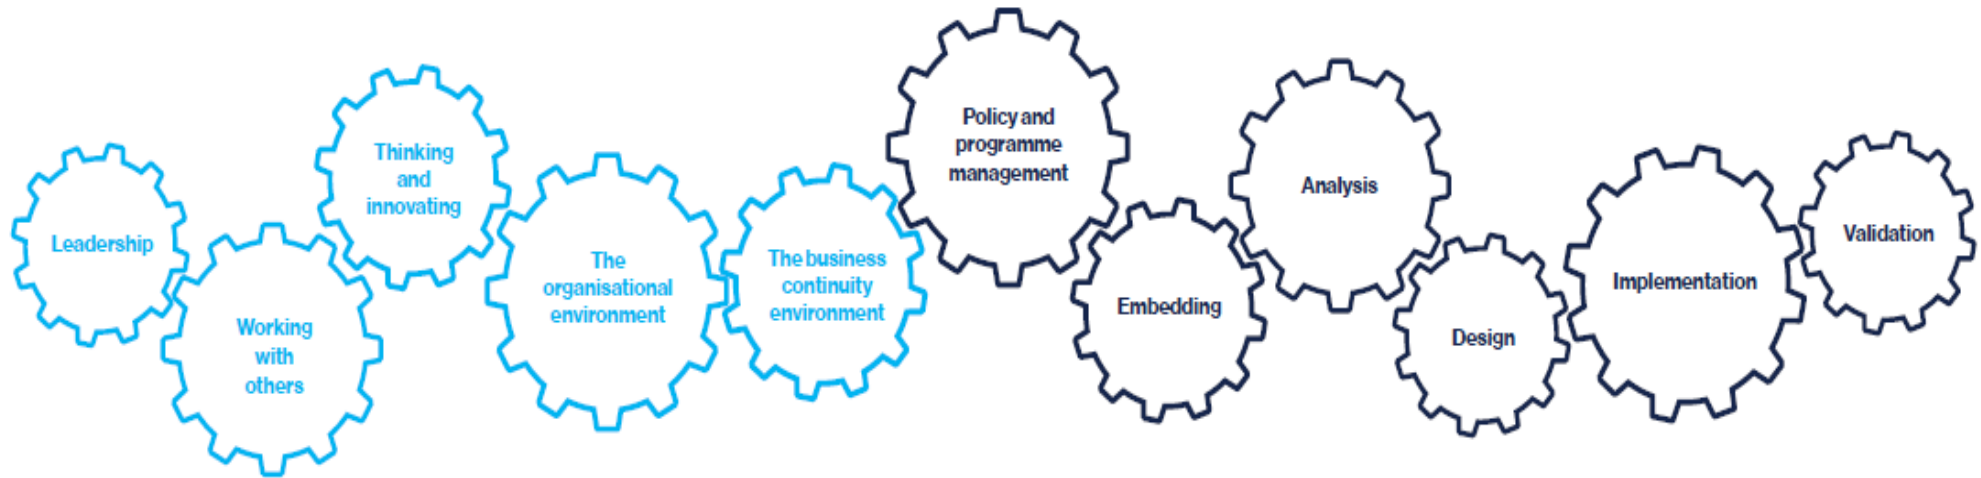

Jaimini Patel, Head of
Risk and Business
Continuity - Roche
Diagnostics UK&I

Competencies

Leadership and management competencies

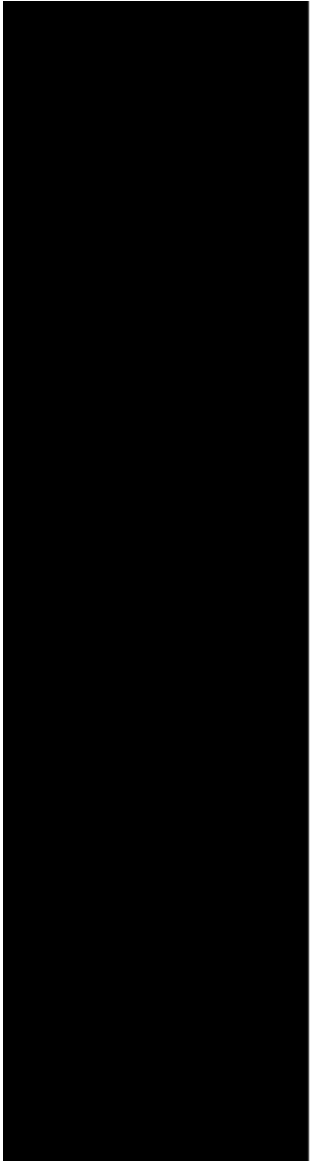

Professional Practice competencies

ETHICS AND VALUES

Extract from the BCI competency framework

Events for risk professionals

A few months ago, the company you work at had a crisis with a 3rd party providing critical services.

There was a cyber attack and all data of the 3rd party company was potentially at risk. Fortunately it was resolved without any losses.

Now the leaders are asking a lot of questions and wanting solid mitigation actions.

You have been nominated as the lead of these activities and have been given 12 months & 225.000 budget to implement a sustainable solution.

You got the go-ahead to 'borrow' any of the internal employees from the list or hire external to form the project team for the next year.

Who do you want on your team and why?

Watch out everything comes at a cost!

NIMI

Security and resilience graduate
Cost per year - 30,000
Years of BCM experience - 0
