

Step up your BCM Preparedness

12 May 2025

EY

Building a better
working world

Immersive crisis and business continuity simulations for hyper-realistic, tool-based crisis preparedness exercises

Elevate your crisis preparedness and organizational resilience and come out stronger from the next disruption.

You will enter a realistic virtual environment and take part in bespoke crisis or business continuity simulations designed to train Executive Boards, leadership, and recovery teams on how to prepare for, adapt during, and recover from a disruptive event.

YOUR BUSINESS CASE

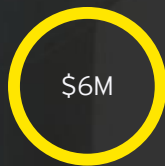

Cost of application failure per hour

Annual disastrous events by 2030

Of businesses do not reopen post natural disaster

Average cost of a cyber disruption

THE BENEFITS

Unexpected challenges for previously mature teams through real-time response implementation

Interactive, realistic interface tests decision making and confidence

Detection of procedural and skills gaps in existing capabilities

THE SOLUTION

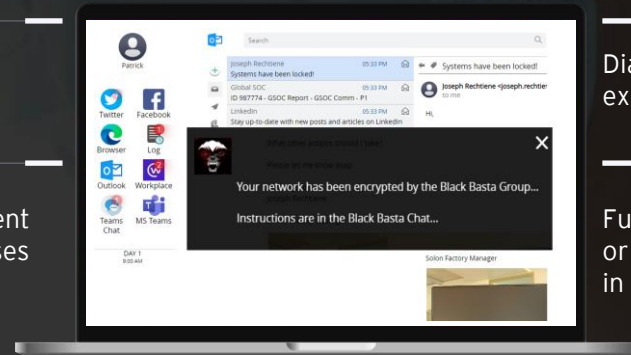

The immersive EY Simulation Platform features

Interactive virtual space

Authentic news flashes, media inquiries, etc.

EY library of 30+ pre-built scenarios

Realistic environment driving live responses

Dial up or down exercise tension

Fully digital, in-person, or hybrid execution, in multiple languages
